REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: applicant's argument that the GB '081 patent fails to teach or suggest an adjusting element that is supported by and connected to a mounting point on said pivot lever displaced away from said pivot point of said pivot lever, a biasing spring that is connected to the housing and to a spring connection point on the pivot lever displaced away from the pivot point on the pivot lever wherein the biasing spring exerts a biasing force that biases the pivot lever to pivot about the pivot point so as to move the adjusting element out of the housing to contact on the floor, in combination with the other elements claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
